

Sunset Room
Hollywood

Sunset Room Hollywood is the ideal venue for all types of events including experiential, entertainment, corporate and birthday celebrations.

Designed specifically with events in mind, the venue is a space that can easily be transformed to any client's vision.

The contemporary features such as the main bar have a polished yet simple feel, while the venue still boasts its original wood bow and truss ceiling.

The glass and steel wall separating the terrace from the main room, allows beautiful natural light to come inside, and also creates an openness to the space overall.

The venue includes a built in stage for performances, DJ booth, LED Lighting and LED Wall and a Line Array Sound System.

For more information & event inquiries, please contact Cora Lytle at cora@sunseteg.com.
